### ABOUT ME

Creative UI/UX Designer skilled in Figma, Canva, and Motiff. Experienced in crafting user-friendly, responsive designs with a focus on usability and modern aesthetics. Passionate about enhancing user journeys and collaborating across teams to deliver impactful design solutions.

### Achievements / Certificates

#### UI/UX Designer Certification

Felix IT Systems, Ahmedabad – 2025

Completed hands-on training in UI/UX design, covering user research, wireframing, prototyping, and responsive design using tools like Figma, Canva, and Motiff

### PROJECTS

#### Hospital Management (Admin Panel)

Hospital Management Admin Panel (HeavenMed) – Designed an intuitive, user-centered hospital admin dashboard in Figma, enhancing workflow efficiency through real-time insights, accessibility, and a consistent design system.

#### Brew Heaven (Android App)

Brew Heaven is a mobile app that simplifies coffee ordering with speed and personalization. Enjoy a cozy café experience, whether you're working, relaxing, or meeting friends. Tailored brews, friendly baristas, and seamless service—all in one tap.

#### Uber App – UI/UX Case Study

This case study explores Uber's transformation into a global mobility platform, focusing on its business model, urban impact, and growth strategies. It also addresses key challenges like regulation, competition, and long-term profitability.
